

NEWSLETTER 18: 27 MAY 2022

Roundtable Events

Dates of the Roundtables are now confirmed, the 14th and 15th of November in Melbourne for the Asia/Pacific, NZ and Australia teams, and now including our 'Americas' colleagues; and the 29th and 30th of November in Copenhagen for our European/UK/South Africa colleagues. The Nordic team are generously hosting the latter, thanks Bodil and colleagues. Both Roundtables will have other events backing onto them, details of those in the next newsletter or two.

A talk

If you are near Gavle University in Sweden on Thursday June 2nd, 2pm, Wes will be presenting an overview of LEARN, it's key outcomes, and LEARN's vision of the changing landscape of ILE development. Hosted by Annalie and Jan, members of our Nordic Team. If you can't make it in person, join us by Zoom, 2pm Sweden time (<https://hig-se.zoom.us/j/67839738579#success>).

Delphi

W2 will be completed next week, and we will release the full WS1 report at that stage. Delphi analysis is proceeding thanks to huge efforts from Chris and Julia, and very soon we will post preliminary comparison analysis between your WS1 data and the Delphists.

Team Profiles

These are coming along nicely, if you have not done so already, we encourage you to share your completed profile with Ramone so that she can upload it to the ILE+SE website along with any logos you would like us to add to the ILE+SE regional map <http://ilesescopingstudy.com.au/index.php/aboutus/>

You can find an overview of each team in our newsletters and further details of each team's research, approach to design, and the collaborations they would welcome, in our Team Profile section. We encourage you to take a look and get in touch if you would like our help facilitating any collaborations.

Zoom link: TBA

Team Catholic Diocese of Parramatta (CEDP)

With 80 great schools (43,000 students and 5,000 staff), across Western Sydney and the Blue Mountains, Catholic Education Diocese of Parramatta (CEDP), serves one of the fastest growing areas of NSW and is committed to responding to the needs of all students in a world that is changing rapidly

The ongoing commitment of each of these schools is to provide high-quality Catholic schooling through improving learning outcomes for all students and promoting a professional and rewarding working life for teachers.

Whether it's through our highly successful trade training programs including at CathWest Innovation College, vocational education and training programs or our virtual school School of Now, CEDP is all about using innovation and new thinking to connect students with 'real world' opportunities.

A key enabler to innovation and new thinking are our innovative learning environments (ILEs). Since 2009 CEDP has been committed to the transformation of our traditional classrooms, in all our schools, into innovative learning environments plus additionally the establishment of new pre-to-post schools in, Stanhope Gardens, Marsden Park and the Gables (Box Hill), CEDP's first high-rise, pre-to-post school.

CEDP is a "System of Schools" leading transformation for learning in today's world.
