

## NEWSLETTER 24: 26 August 2022

### Regional Zooms

You will remember we hold regional Zooms after each Workshop to present analysis in an informal Q+A session that is open to everyone. We encourage you to attend to comment on the direction ILE+SE is taking, and its relevancy to your businesses, schools, and organisations. A summary video will be shown at the Regional Zoom, and a minor report available in September.

**Aust/SE Asia/NZ** (with Chris); **Mon 29th August, 5.30pm** (Auckland time).

### Roundtable travels

Planning for the important Roundtables is progressing well. Details and booking information will be made available on our website in the next week or two. Kelly is in the process of contacting each Team Leader to find out

- Who will be your funded representative
- Preferred flights so we can purchase these, and information on hotel bookings
- Briefing on how to book via Eventbrite for you and any self-funded Team colleagues.

### Delphi

The Delphi component of ILE+SE continues to gather data – Round 2 has been live for a few weeks, and we are close to receiving all submissions. Reporting on the Delphi material will be done separately to our Workshop data and will be presented at the Roundtables – please see the ‘publications’ map we sent to you in Newsletter 23, a thumbnail shown here.

### Thanks to Ramone, and welcome Kelly

We are saddened to say goodbye to our founding Project Manager Ramone. Ramone’s skills are such that she needs to prioritise, a nice quandary to face! We are pleased to say she remains with the ILE+SE project through her contribution to the Scottish Alliance Team. We welcome Kelly Day, based in Melbourne, as our new Project Manager. Kelly is available to deal with project issues on [kelly.day1@unimelb.edu.au](mailto:kelly.day1@unimelb.edu.au).

### Thank-you and goodbye to our Cafés!

After some months and more than a dozen events, we are bidding goodbye to our Cafés. Our Management Team is under pressure to analyse incoming data, prepare reports, and organise some important upcoming events. We are stretched quite a bit, so will need to surrender the organisation of this networking concept. We will finish with the South African event advertised above and thank everyone who contributed to the discussions over the past few months.
