

## NEWSLETTER 27: 7 October 2022

### Workshop 3: October 24<sup>th</sup> to November 4<sup>th</sup>

Most Teams now have a day and time organised for our last Workshop (number 3). If you are not sure when yours is scheduled, please contact your Team Leader. In advance, Teams will receive the draft White Paper. Our intent is that you will use WS3 to provide your Roundtable delegate with feedback on the White Paper – specifically, your views on the proposed research project that is a project core output. With that information your delegate can represent your views at the Roundtable.

### Roundtables and LEARN Week

For delegates and guests Roundtable details and bookings are now available for both the Melbourne (14-15 Nov, part of a larger LEARN Week) and the Copenhagen (28-30 Nov) events. Visit the website for more details:

<https://ilesescopingstudy.com.au/index.php/learnweekevent1/>.

Kelly continues to be your main point of contact for most things Roundtables. Please don't hesitate to reach out.

### Copenhagen Accommodation

For those attending the Copenhagen event and are not funded by ILE+SE, the hotel we have selected to host us is the Babette Guldsmeden. The hotel is walking distance to the Roundtables venue, and other travel methods are possible. The hotel has suggested to go direct to their website for best available rates. <https://guldsmedenhotels.com/babette/>. There are, of course, many options in the area if this hotel does not suit your needs.

### Research progress

Amidst the flurry of organising WS3 and the Roundtables, your Management Team has progressed research on schedule. The WS2 Minor Report (albeit, still needing a few small edits) is available to you. The Delphi Survey 2 is completed and initial analysis has occurred. That has led to Round 3 being implemented for one group who has achieved consensus already (the 'confirming result' question), and Round 2a is being implemented for the other two, to see if we can achieve consensus on their rankings. This is entirely within the scope of normal Delphi studies.

### Budget

We do not often mention budget issues but would like to briefly say that at present we are on track to complete the project without a cost over-run. This is partly due to your flexibility when organising Roundtable airfares and accommodation (our second-largest budget item). So, our thanks for your cooperation.

### Workshop 2 Analysis (the minor report)

Kelly emailed the Workshop 2 Minor Report on Wednesday. As there are some minor amendments still to be made when Lachlan, our graphics guru returns from a holiday, we ask that you do not circulate it further than your Teams at this stage. The final copy will be released in mid-October.

### ILE+SE Website

Just a reminder, the ILE+SE website has a wealth of information about the project so far.

<http://ilesescopingstudy.com.au/>

### Contact Details

If there have been any changes to your teams or to your contact details, please email Kelly to have these updated.

Contact your Team Leader with any queries & for further information
